

Cricket Square Renovations Guide – Print off

| | | | | | |
|---|--|------------|---|--|-----|
| Day One | | Staff(min) | Day Two | Scarify 3 direction, to remove surface canopy around 3-5mm in depth. More as required | 2/3 |
| 1- | | 1 | 1- | | |
| 2- | Verti Cut & Cut to thin out grass canopy | 1 | 2- | Brush/rotary/mow collection between scarifying directions | |
| 3- | Water the square to soften profile, to assist scarifier & mark corners | 1 | 3- | Scarify to finish depth of thatch in 1/2 directions, 1 mm below deepest thatch layer. | 2/3 |
| <p>Scan the QR to go to TurfCareBlog.com</p>  | | | 4-- | Brush and collect up scarifying debris | |
| | | | 5- | Using a cyclone spreader, seed (quarter/half rate) and possible brush in. | |
| | | | Go to day 3, if you need to re water to allow for spiking | | |
| | | | Day Two/Three | Sarel spike (2/3 directions) or and spike the square to no deeper than an inch (stop if surface lifting). Applying seed between each sarel direction and brush in. | 2/3 |
| | | | 6- | Opportunity to add a pre seed fertiliser at this point, or once completely top dressed. | |
| | | | 7- | Top dress ends, with loam and a bit of seed and firm by foot. | |
| | | | 8- | Top dress the rest of the square 6-8 bag, enough to restore levels. | |
| | | | 9- | Dragmat/brush/loot/straight edge the topdressing to create an even coverage of loam. Add more loam as required too low areas, but don't bury any existing grass. | 2/3 |
| | | | 10- | Go back to the ends and double check levels, if required use a straight edge or loot to level. | |
| | | | 11- | Mark corners of the square and if possible, erect some type of fencing. | |
| | | | Two-week post renovations | The first two weeks are key to seed success so keep moist, avoid over watering that may cause wash off. | 1 |
| | | | 12- | First cut 3/4 weeks after renovations. | |
